

Attention: MTF and Lead Agents

The new 2001 content for the *Primary and Pharmaceutical Care* publication has been released by *M&R Care Guidelines*. This year a license has been secured on behalf of your Military Treatment Facility for your staff to view the content electronically over the Internet. All fees have been paid for your annual license of this content.

This year, instead of receiving your electronic version of the *Primary and Pharmaceutical Care* publication on a diskette to be loaded, your staff will log on to the *M&R Care Guidelines* site to view the *Guidelines*. The process is described below:

Step 1 - Log on to this URL address: <http://careweb.mnr.com>

Step 2 - Enter this username and password

Username: mtf

Password: dod

Step 3 - Click on 2001

In prior years, a hardbound copy of the *Primary and Pharmaceutical Care* publication was mailed to each MTF as *M&R Care Guidelines* released new editions. Since access for MTFs is provided this year over the Internet, no books will be purchased and sent. However, each MTF can order books by contacting the Client Services department toll free at 888/ 464-4746. When calling, if you mention that you represent an MTF that currently licenses *Primary and Pharmaceutical Care*, you will be extended a 20% discount off of the standard fee for this book. Publications ordered other than *Primary and Pharmaceutical Care* can be purchased at *M&R Care Guidelines* standard fees.

If you want to know more about *M&R Care Guidelines*, please visit their Web site at www.mnr.com or call toll free at 888/464-4746.
